URBAN MOBILITY

Pune Metro Phase - II

A SMART CHOICE FOR EVERYDAY TRAVEL

The Maharashtra Metro Rail Corporation Limited (Maha Metro) project in Pune is a modern urban rail transit system designed to provide fast, safe, and sustainable public transportation across the city. It aims to reduce traffic congestion, shorten travel time, and support Pune's growth as a smart, well-connected urban hub.

Pune is growing rapidly, but with growth comes challenges. Increasing traffic congestion, longer travel times, and rising pollution are affecting everyday life.

These new metro corridors are designed to transform the way Pune moves, offering faster, safer, and more sustainable connectivity across the city.

ROUTE STORY

Corridors connecting
diverse lifestyles, aspirations,
and opportunities.

Phase-I (Fully Operational)

PURPLE LINE	AQUA LINE
PCMC - Swargate (Ele+UG)	Vanaz - Ramwadi (Ele)
17.53 km 14 Stations	15.75 km 16 Stations
Total Completion Cost: 13,656.22Cr	

Phase-I (Extensions - Under Construction)

PCMC - Bhakti Shakti (Ele)	Swargate - Katraj (UG)
4.78 km 4 Stations	6.06 km 5 Stations
Total Completion Cost: 4,597.82Cr	

Phase - II (Under Construction)

Vanaz - Chandani Chowk (Ele)	Ramwadi - Vitthalwadi (Ele)
1.12 km 2 Stations	11.63 km 11 Stations
Total Completion Cost: 3,626.24Cr	
Kharadi - Hadapsar - Swargate - Khadakwasla (Ele)	Nal Stop - Warje - Manik Baug (Ele)
25.52 km 22 stations	6.12 km 6 stations
Total Completion Cost: 9,857.85Cr	

LEGEND

(Ele) - Elevated | (UG) - Underground

OPERATIONAL LINES

Purple Line	PCMC to Shivajinagar (Ele)
Purple Line	Shivajinagar to Swargate (UG)
Aqua Line	Vanaz to Ramwadi (Ele)

PROPOSED LINES

Orange Line	Hadapsar to Loni Kalbhor (Ele)
Orange Line	Hadapsar to Saswad Road Railway Station (Ele)

UNDER CONSTRUCTION LINES

Purple Line	PCMC to Bhakti-Shakti (Extension-Ele)
Purple Line	Swargate to Katraj (Extension-UG)
Aqua Line	Vanaz to Chandani Chowk (Extension-Ele)
Aqua Line	Ramwadi to Vitthalwadi (Extension-Ele)
Pink Line	Hinjewadi to District Court (By PMRDA-Ele)
Orange Line	Kharadi to Khadakwasla (Ele)
Orange Line	Nal Stop to Manik Baug (Ele)

OTHER

INTERCHANGE	INDIAN RAILWAY LINE
DEPOT	WATERBODIES
RAILWAY STATION	PUNE AIRPORT

Corridors connecting Pune's diverse
lifestyles, workplaces, educational hubs,
and future growth destinations.

LINE 2 EXPANSION

EXPANDING CONNECTIVITY

LINE 2A

Vanaz to Chandani Chowk

Strengthening West Pune Connectivity

PROJECT HIGHLIGHTS

-  **1.12 km**
Metro Extension
-  **2**
New Metro Stations
-  Fully Elevated Metro Corridor
-  Extension of the existing Aqua Line (Line 2)
-  Improved first & last-mile connectivity in West Pune

KEY BENEFITS

- Faster travel across West Pune
- Reduced congestion at Chandani Chowk
- Better access to residential & commercial hubs

LINE 2B

Ramwadi to Vitthalwadi

Connecting East Pune for a Better Tomorrow.

PROJECT HIGHLIGHTS

-  **11.63 km**
Metro Extension
-  **11**
New Metro Stations
-  Fully Elevated Metro Corridor
-  Connects major residential, commercial & IT hubs
-  Supports sustainable urban expansion in East Pune

KEY BENEFITS

- Enhanced East Pune Connectivity
- Less Travel Time & Congestion
- Better Access to IT & Key Hubs
- Connectivity with future expansion

Transforming everyday commuting into
a faster, safer, and stress-free
travel experience for millions of
Pune residents.

EXPANDING CONNECTIVITY

ENHANCING MOBILITY

LINE 4

Kharadi to Khadakwasla

Connecting East Pune to South-West Pune

PROJECT HIGHLIGHTS

-  **25.52 km**
Metro Extension
-  **22**
New Metro Stations
-  Fully Elevated Metro Corridor
-  **5.8 km**
Integrated Metro & Elevated Highway
-  **2.63 km**
Integrated Metro & PMC Flyover

KEY BENEFITS

- Faster cross-city connectivity
- Reduced travel time & congestion
- Seamless multimodal integration
- Safe & eco-friendly public transport

LINE 4A

Nal Stop to Manikbaug

Connectivity with Line - 2

PROJECT HIGHLIGHTS

-  **6.12 km**
Metro Extension
-  **6**
New Metro Stations
-  Fully Elevated Metro Corridor
-  Extends Metro connectivity to Karve Road & Warje
-  Multimodal integration for surrounding neighbourhoods

KEY BENEFITS

- Connectivity with Line - 2
- Faster daily commuting
- Reduced road congestion
- Enhanced connectivity for residential areas

Building a Better Pune

with Integrated, Sustainable & People-Centric Mobility

STATE-OF-THE-ART DOUBLE-DECKER STRUCTURE

An integrated Double-Decker Corridors will be developed where Metro and the Elevated Highway will run together, creating one of Pune's most advanced transport infrastructures.

These corridors combine modern engineering, faster construction techniques, and integrated mobility to deliver safer, more efficient and future-ready transportation.

KEY ENGINEERING HIGHLIGHTS

Two-Level Engineering

Level-1: Six-Lane Elevated Highway
Level-2: Pune Metro

Double-Decker Structure (Metro & Elevated Highway)

Bhairoba Nala - Akashwani
Chandani Chowk - Bhusari Colony

High-Capacity Stations & Connectivity

Seamless passenger flow with integrated multimodal access

Engineering innovation integrating **Metro** and **Elevated Highway** to create faster, safer and smarter mobility for Pune

DRIVERLESS METRO

Smarter Technology. Safer Journeys. Better Connectivity.

Experience the future of urban mobility with Unattended Train Operation (UTO), an advanced metro system designed to operate automatically, without a train operator onboard, ensuring faster, safe, smarter and more efficient journeys.

Key Features

Fully Automatic & Efficient Operations

Trains automatically start, run, stop and auto turn back without a train operator, enabling smooth, reliable service and reduced waiting times.

Advanced Safety & Smart Fault Detection

Intelligent systems continuously supervise train speed, obstructions, movement and distance while automatically detecting technical faults to support safe operations.

Automatic Doors & Platform Safety

Automated train doors and integrated safety systems help ensure safe and convenient passenger boarding and exit.

Sensitive Edge - Anti-Drag Protection

Advanced sensors detect trapped clothing like saree, dupatta, straps and automatically stops the train and opens the door for passenger safety.

24x7 Centralised Monitoring & CCTV

Trains are continuously monitored from a central control room, supported by 100% CCTV surveillance inside coaches for enhanced security.

Emergency Safety & Communication

Automatic emergency braking and Passenger Emergency Communication Units (PECU) provide additional protection and direct communication with control staff.

More Space, Better Comfort

Driverless train designs can offer additional passenger space, while automated operations support faster, smoother journeys and improved travel comfort.

Inclusive & Passenger Friendly Facilities

Dedicated seats for women, senior citizens and Divyang passengers, wheelchair accessibility and provision for carrying bicycles ensure convenient and inclusive travel.

THE FUTURE OF METRO TRAVEL

Fully Automated | Safe | Smart | Efficient | Faster

UTO (GoA-4) technology brings intelligent automation to metro travel, making everyday journeys safer, smoother, convenient and faster travel.

STATIONS DESIGNED FOR COMFORT & EFFICIENCY

From entry to destination, every step is thoughtfully designed for commuter convenience. Featuring seamless multimodal integration with buses, feeder services, pedestrians, and last-mile connectivity systems for a smooth, comfortable, and efficient everyday travel experience.

Smart Ticketing Systems

Mobile App

Digital Kiosk

Ticket Vending Machine (TVM)

WhatsApp e-ticketing

Easy Accessibility For All

Ramps

Elevators with Braille Buttons

Escalators

Tactile Pathways

Divyang-friendly Design

Safe, Secure & Modern Station Infrastructure

Surveillance System

Automated AFC Gates

Energy-Efficient Infrastructure

Emergency Response Systems

Digital Signage

Spacious, Well-lit & ventilated

Every station is thoughtfully designed to provide **safe, accessible, comfortable,** and commuter-friendly travel experiences.

TIME, CONNECTIVITY & ECONOMIC BENEFITS

Redefining Travel Time

Daily commutes that once took hours will now be completed in minutes. The metro ensures consistent, predictable, and stress-free travel.

Experience seamless connectivity across Pune like never before.

These metro corridors are not just about faster, hustle-free travel, it also delivers massive significant long-term economic benefits.

UP TO

60% REDUCTION IN
TRAVEL TIME

Transforming everyday travel with
faster connectivity, predictable travel times,
and a seamless commuting experience.

A CORRIDOR OF GROWTH & OPPORTUNITY

Connecting Pune. Creating Opportunities.

Pune Metro Phase-II is set to transform urban connectivity and unlock new opportunities for residential, commercial and economic growth across Pune.

44.39 km
Total Corridor Length

41
Elevated Stations

High- Potential
Growth Zones Across Pune

Key Growth & Investment Opportunities

Real Estate Growth:

Rising development potential around metro stations and emerging residential hubs.

Commercial Expansion:

New opportunities for IT parks, offices, retail and business districts.

Transit-Oriented Development:

Integrated residential and commercial spaces around key transit nodes.

Better Connectivity:

Improved accessibility for residents, businesses and the workforce.

Driving Pune's economic future through connectivity, development and investment opportunities.

Where Connectivity Expands, Value Multiplies.

Strategically located metro stations will become catalysts for urban development, creating vibrant business hubs, connected communities and future-ready growth zones.

Dedicated residential development zones

Thriving commercial and business districts

Integrated future ready developments

Strategically planned stations and **transit-oriented development zones** will unlock high-potential investment opportunities across Pune.

A DAY IN THE LIFE WITH METRO

Every day, millions of journeys shape Pune. The metro is designed to make each one better.

For the Student

Reach schools and colleges on time, every day without the stress of traffic congestion.

For the Working Professional

Save hours in commute and invest time where it truly matters.

For Families

Travel comfortably, safely, and together across the city.

For Businesses

Improve accessibility, increase footfall, and unlock new opportunities.

Enhancing everyday life by making travel
smarter, faster, more reliable, and seamlessly
connected for every citizen.
